

# LINKEDIN AUTOMATED CONTENT

Let the **AI Content Engine** write impactful, platform-optimized LinkedIn posts daily—while you focus on real conversations, inbound leads, and growing your authority.

# List of content

This presentation gives a brief but comprehensive overview of the structured sections.

- 01 Background
- 02 What We Built!
- 03 Before and After
- 04 Tools We Used
- 05 Our Vision and Mission
- 06 LinkedIn Content Engine System's Strength

# Background

The client wanted to post consistently on **LinkedIn** to attract inbound leads and build credibility.

However, writing high-quality posts daily was time-consuming and mentally draining.

Post frequency dropped, and visibility declined.

They needed a way to stay active without spending hours thinking, writing, or scheduling content.

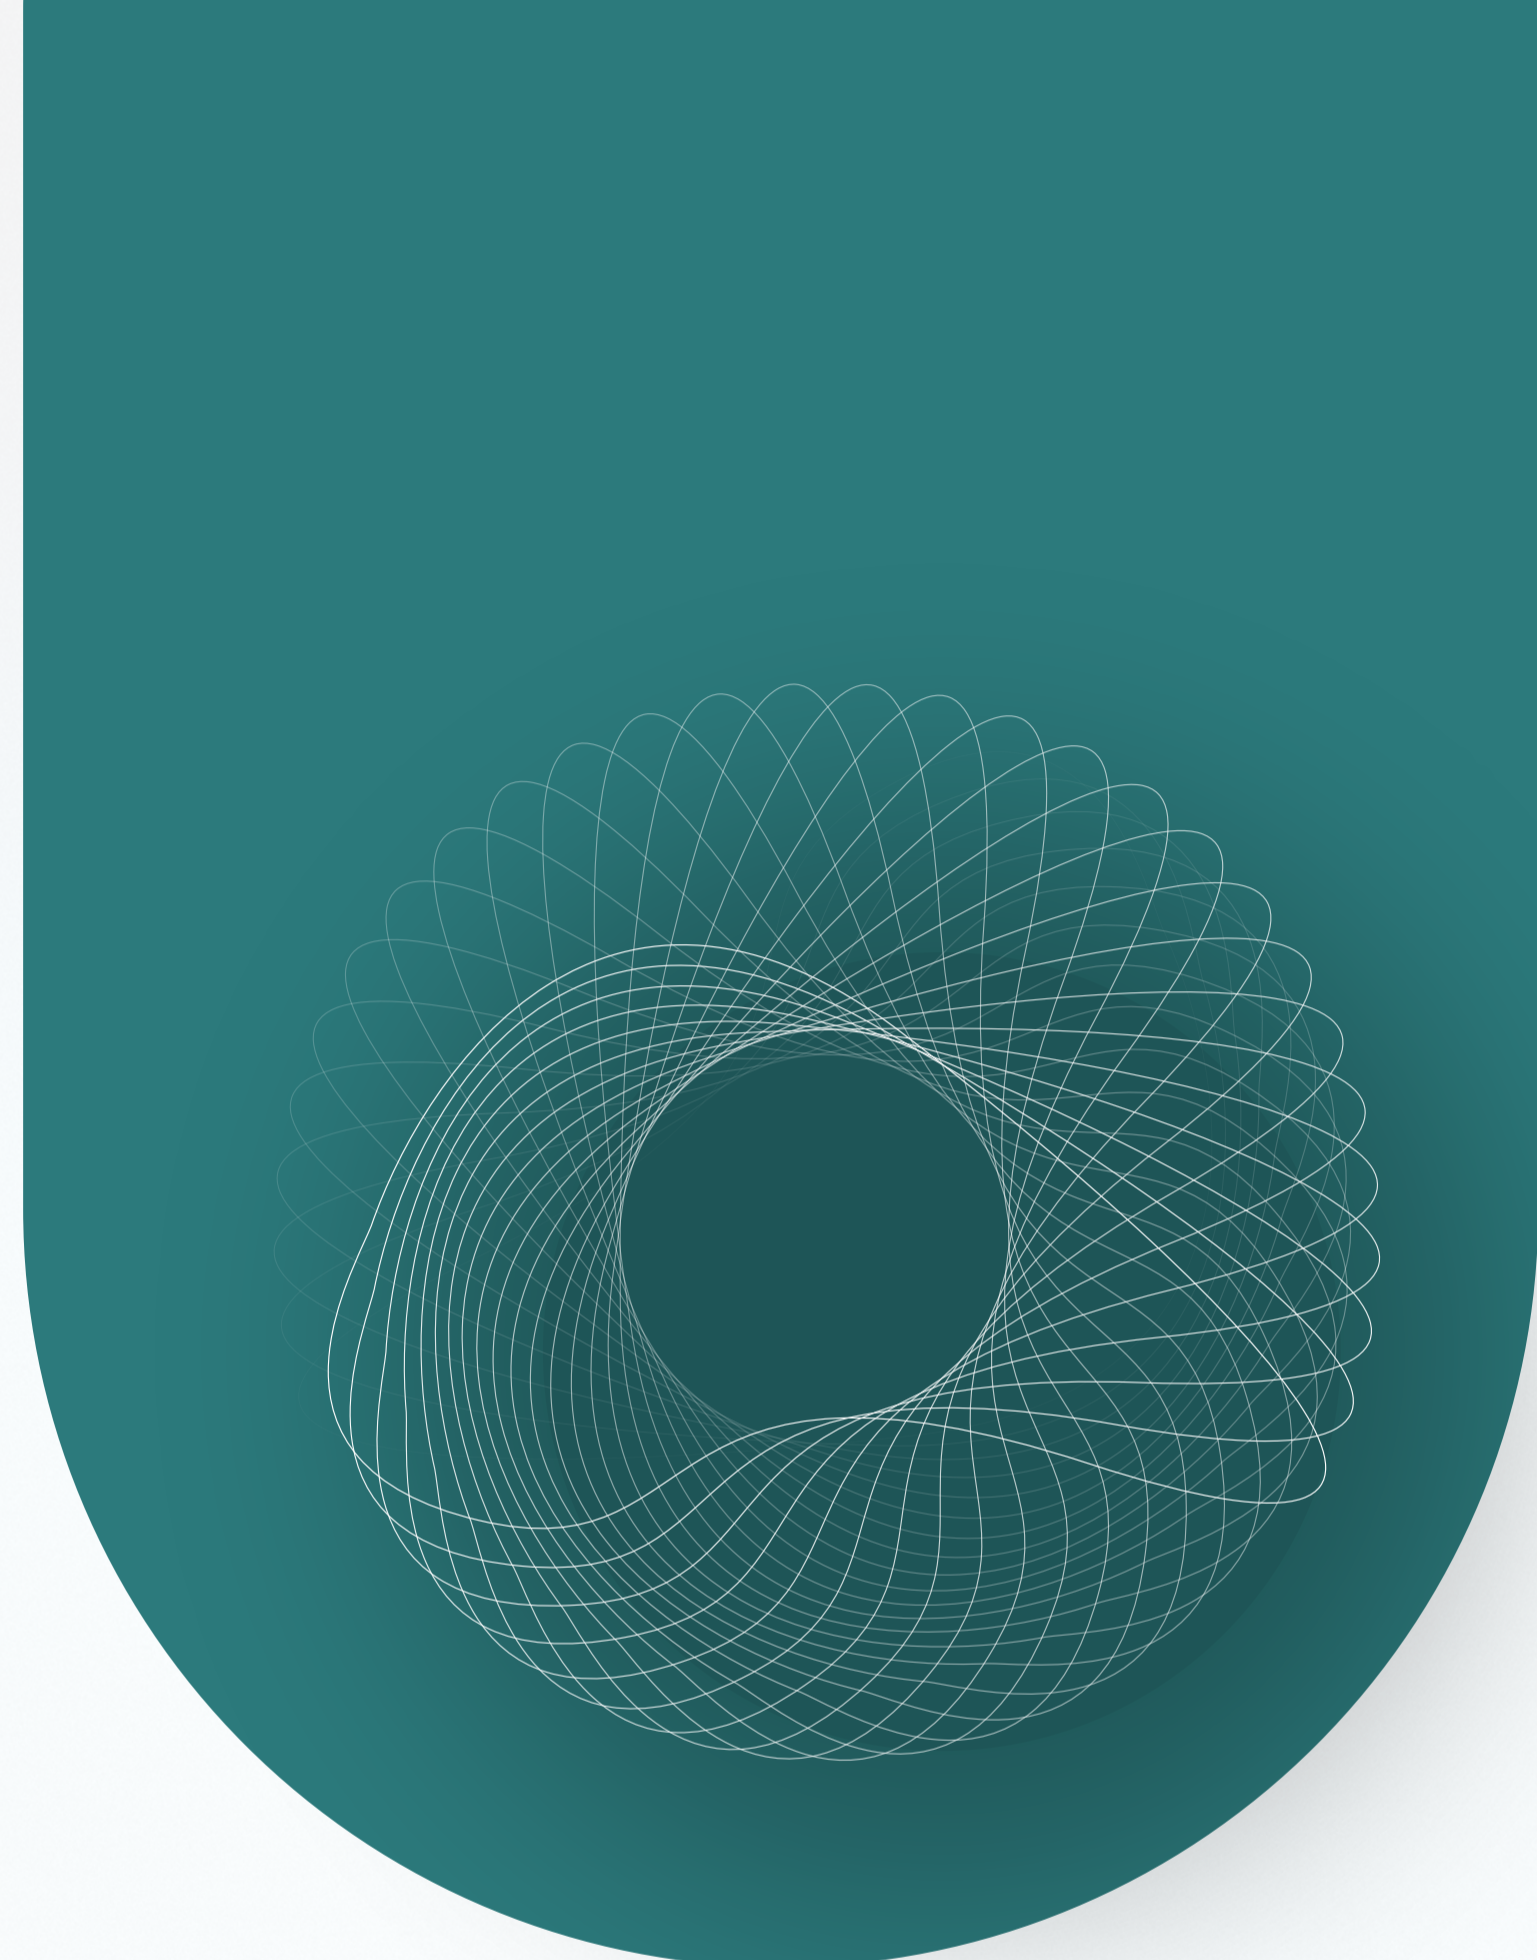

# What **We** Built!

We built an **AI-based content** engine that:

We created an **AI-powered LinkedIn content system** that writes, formats, and auto-posts thought-leadership content—tailored to the client's voice and expertise.

The entire post-content will be humanly-written, automated, and designed to keep prospects warm.

# Before and After

| Metric                | Before Automation | After Automation   |
|-----------------------|-------------------|--------------------|
| Posts per Week        | 1-2               | 5-6                |
| Writing Time per Post | 45-60 mins        | 0-5 mins           |
| Consistency           | Low               | High (daily posts) |
| Profile Impressions   | ~600              | 3,000+             |
| Inbound Leads         | 1-2/month         | 4-6/month          |

**Result:** The client built top-of-mind awareness with **6x more visibility**, consistent posting, and **inbound DMs**—without touching the keyboard.

# Tools We Used

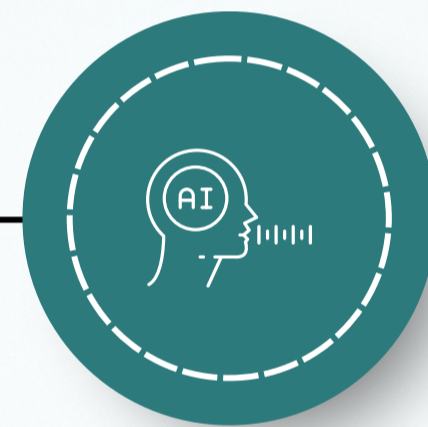

For our **clients**, we offer tailored services that fixes the core needs of businesses inside the **LinkedIn**, helping them achieve growth, and stay competitive.

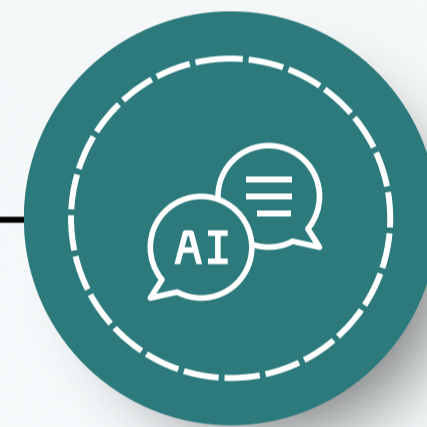

For the **automations**, we try to use make.com along with some custom functions.

We use **OpenAI** to generate the content and format it.

For the **thumbnail images**, we use leonardo ai too generate high quality images.

We use **Google Sheets**, this is used as a CRM and schedulling.

# Our Vision and Mission

## Vision

To simplify growth for modern businesses by transforming manual workflows into smart, scalable systems through automation, AI, and digital solutions.

## Mission

At **Automark Agency**, our mission is to empower service-based businesses with tools that save time, increase efficiency, and drive measurable results using AI Systems.

# AI Solution's Strength

## Thoughtful, Not Robotic

Posts are written in a natural, human tone—never generic or AI-obvious.

## Hands-Free Creation

No writing or brainstorming needed—just review and approve if desired.

## Consistent Visibility

Daily posts keep the client active, relevant, and top-of-mind.

## Format-Optimized

Content follows proven structures that drive engagement and responses.
