

REAL ESTATE SYSTEM FOR LEAD HANDLING

Let Al Voice Agent book the viewings and let the WhatsApp Al Agent help you nurture and handle the new leads.

List of content

This presentation gives a brief but comprehensive overview of the structured sections.

01	Background
02	What We Built!
03	Before and After
04	Tools We Used
05	Our Vision and Mission
06	Al Real-Estate System's Strength

Background

M

Before working with **Automark Agency**, the client—a top-producing real estate agent—was missing out on high-intent leads due to **delayed follow-ups** and time constraints.

Despite generating solid interest, manual conversations weren't scalable.

The agent needed a system that could **instantly engage**, qualify, and convert—without hiring a full sales team.

What We Built!

We developed a dual-agent system:

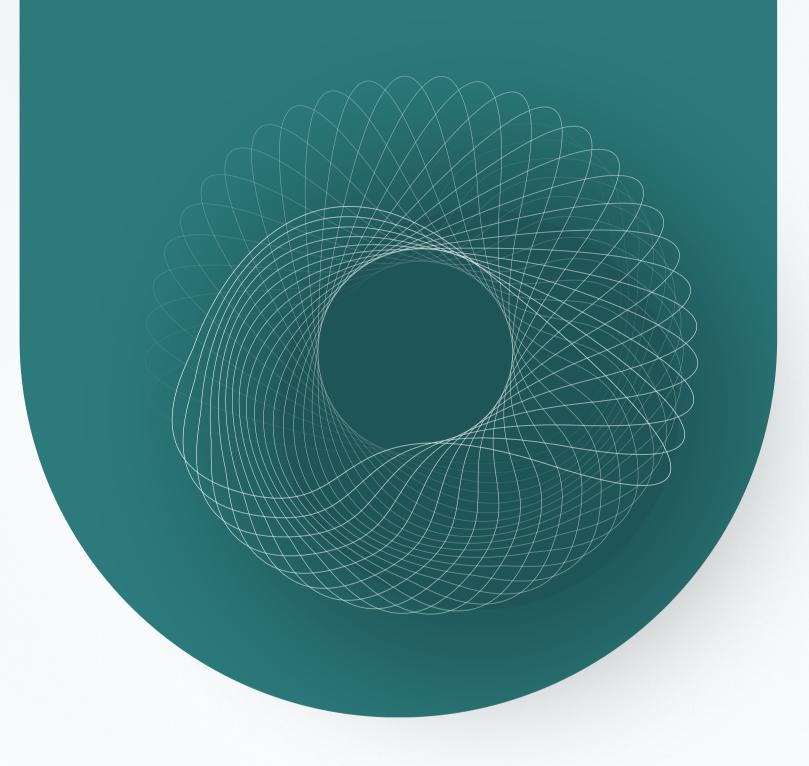

A **Voice Agent** that makes a short, powerful call to qualify leads, establish trust, and transition them to **WhatsApp**.

A human like **WhatsApp AI Agent** that works like a digital **sales rep—sending listings**, handling objections, following up, and **booking meetings**.

The entire flow is human-sounding, automated, and designed to keep prospects warm without pressure.

Before and After

Metric	Before Automation	After Automation
Lead Follow-Up Time	12–24 hours (manual)	Instant (under 10 seconds)
Response Rate	~35%	86%+
Appointments per Week	3–4	9–11
Time Spent per Qualified Lead	15–20 minutes	<3 minutes
Cold Lead Reactivation	Rare/Manual	Automated every 7-14–30 days

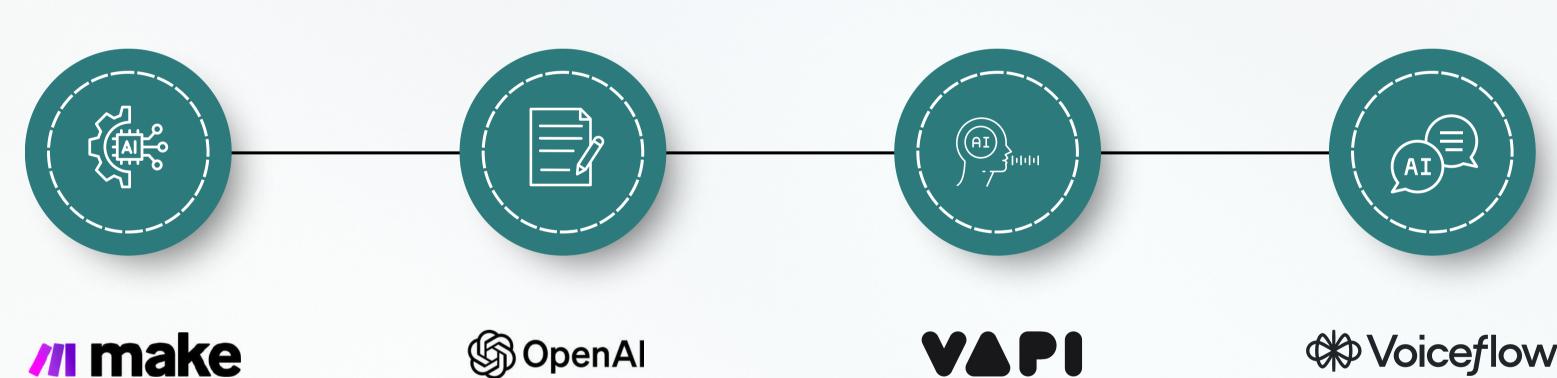

Result: The agent more than doubled showings booked, re-engaged cold leads, and closed more deals—all without hiring a co-ordinator or sales assistant.

Tools We Used

For **realtors**, we offer tailored services that address the core needs of businesses, helping them achieve growth, improve efficiency, and stay competitive.

For the automations, we try to use make.com along with some custom functions.

OpenAI plays a great role in ChatBOT reply handling and many other tasks.

We have used **VAPI** for the AI Voice Agent along with make.com Automations.

W Voiceflow

For the WhatsApp agent, we have used Voiceflow's immense capabilities to match the client expectation ChatBot

Our Vision and Mission

Vision

To simplify growth for modern businesses by transforming manual workflows into smart, scalable systems through automation, AI, and digital solutions.

Mission

At **Automark Agency**, our mission is to empower service-based businesses with tools that save time, increase efficiency, and drive measurable results using Al Systems.

Al Solution's Strength

Sales Psychology in Prompts

Every message mimics highperforming human scripts

Feels Human, Works at Scale

Prospects stay engaged because the follow-up feels natural

24/7 Consistency & Follow Ups!

The **WhatsApp bot** and Voice **Al Agent** never sleep, forget, or gets tired

Long-Term Engagement & Results

System handles reactivation, not just initial contact.

The bot doesn't just chat—it **books calls** and closes deals
